COOKIES POLICY

Our website uses cookies - small data files (mainly text files) that are stored on your end device. Cookies usually contain the name of the website from which they originate, their storage time on the end device and a unique number. They are not used to process or store your personal data. They cannot be used to directly identify you or any other User. They also do not make any configuration changes in the browser or telecommunication devices you use.

PURPOSES

We use cookies for the following purposes:

- prepare statistics that help us to learn about the preferences and behavior of users. The analysis of these statistics is anonymous and allows to adjust the content and appearance of the website to the prevailing trends. Statistics are also used to evaluate the website and its functionality.
- maintain user sessions and other users' sessions, to store preferences, consents, etc., so that users do not have to enter the same information every time they visit our website,
- determine users' profiles to display tailored advertising materials, in particular by Google, Facebook and other partners.

TYPES OF COOKIES

Our website uses two basic types of cookies:

- session cookies - temporary files that are stored on your end device until logging out, leaving the website or turning off the software (=web browser), and
- persistent cookies - files stored on your end device for the time specified in the cookie parameters or until they are deleted by you.

Web browsers usually allow storing cookies on your end device by default, however if you do not wish to receive cookies, you may change these settings. The web browser allows you to delete cookies, it is also possible to automatically block them by default. Please mind that disabling cookies necessary for authentication processes, security, maintaining user preferences may make the use itself more difficult, and in extreme cases, even prevent the use of our website.

COOKIES SETTINGS

In many cases, the software used for browsing websites (web browser) allows the storage of "cookies" on the end device by default. All users can change their cookies settings at any time. The settings can be changed in particular in such a way as to block the automatic handling of "cookies" in the web browser settings or to inform about their every posting on the end device. Every web browser gives a range of options for enabling or deleting cookies.

Detailed information on the possibilities and methods of handling cookies is available in the software (web browser) settings used by the user. More information about the cookies may be available in the tools or settings section, directly in the user's web browser (such as Google Chrome, Mozilla Firefox, Internet Explorer, Safari etc.
